SUBJECT INDEX, VOLUME 23

A

Absorption, mobility, and degradation of glyphosate in soil . . 229
Absorption, translocation, and action of glyphosate 235
Action, absorption, and translocation of glyphosate 235
Additives and climate, influence on bentazon 504
Address, Presidential: Pluck a thistle and plant a flower 246
Adjuvants, common and chemical names of 162
Adjuvants, influence of state of growth and adjuvants on fall panicum control in corn with cyanazine 241
Alachlor and atrazine combinations at low rates, weed response to 67
Alachlor and atrazine combinations on Japanese millet, basis for synergism of 43
Alfalfa-orchardgrass establishment, crop protectants and herbicides for 414
Alfalfa, selective control of downy brome in 202
Ammonium sulfate enhancement of picloram activity and absorption 289
Antagonistic and synergistic effects, an improved definition of . 4
Apple orchards, weed population and herbicide residues after 5 years 52
Arsenic in soil after five annual applications of MSMA 341
Arsenical herbicides for removing broomsedge from forage grasses 222
Asparagus, control of Canada thistle and field bindweed in . . . 458
Atrazine and alachlor combinations at low rates, weed response to 67
Atrazine and alachlor combinations on Japanese millet, basis for synergism of 43
Atrazine, bromacil, and MSMA, carbohydrate response of bermudagrass, dallisgrass, and smutgrass to 383
Atrazine, sorghum growth as affected by annual applications of . 494
Atrazine, terbutryn, and GS-14254 sorption of on natural and lime-amended soils 390
Atrazine, translocation of: Accumulation versus passage through petioles 97

B

Barnyardgrass, green foxtail, and yellow foxtail seeds, longevity of in soil 437
Beggarweed, Florida and sicklepod with peanuts, competition of 368
Benefin, trifluralin, and nitralin, soil persistence of 211
Bentazon activity, effects of simulated rainfall on 105
Bentazon, glyphosate, and perfluidone, response of yellow nutsedge and soybeans to 215
Bentazon and perfluidone in turfgrasses, purple nutsedge control with 349
Bentazon, differential intraspecific responses of soybean cultivars to 516
Bentazon, influence of climate and additives on 504
Bentazon selectivity in navy bean, cocklebur, and black nightshade, the basis for 272
Bentazon translocation and metabolism in soybean and navy bean 265
Bermudagrass, dates of herbicide application for weed control in 110
Bermudagrass, carbohydrate response to atrazine, bromacil, and MSMA 383
Bermudagrass, 'Tifway', effects of herbicide treatments on the establishment 462
Bindweed, field and Canada thistle control in asparagus 458
Black nightshade, navy bean, and cocklebur, the basis for bentazon selectivity in 272
Black walnut and yellowpoplar seedlings, uptake, distribution and degradation of simazine by 448
Bluegrass, Kentucky and perennial ryegrass, wild oat control in . 525
Bromacil, soil water potential and uptake by wheat 127
Bromacil, atrazine, and MSMA, carbohydrate response of bermudagrass, dallisgrass, and smutgrass to 383
Broomsedge, arsenical herbicides for removing from forage grasses 222

C

Calcium and 2,4-D on eurasian watermilfoil, inter-action of . . 182
Canada thistle and field bindweed in asparagus, control of . . . 458
Canada thistle, chemical control of 116
Canada thistle, control of by soil fumigation without tarpaulins . 191
Carbamate herbicides, germination stimulation properties of . . 419
Carbofuran-propanil interactions in rice 176
CFNP, a selective herbicide for Sunflower 57
Chemical mixtures for control of winged elm 131
Chlorobenzoyl chloride and methyl chlorobenzoate as synthetic plant growth regulators 428
Climate and additives, influence on bentazon 504
Clover, white, raised for seed, control of winter annual weeds in 441
Cocklebur, black nightshade, and navy bean, the basis for bentazon selectivity in 272
Cocklebur control in soybeans as affected by cultivars, seeding rates, and methods of weed control 386
Cogongrass, control of with herbicides 194
Competition between purple nutsedge and vegetables 317
Competition of Florida beggarweed and sicklepod with peanuts . 368
Competition, weeds in cotton, nitrogen influence on 324
Contributors to Weed Science, Directions for 79
Conversion, English to metric 80
Corn, fall panicum, green foxtail, uptake, movement, and metabolism of cyanazine in 277
Corn, influence of soil moisture to tolerance to cyanazine . . . 522
Corn, no tillage, effects of plant residue on herbicide performance in 512
Corn, translocation of ^{14}C-SAN 6706 in 26
Cotton, furrow-irrigated, influence of yellow nutsedge competition on 171
Cotton, influence of nitrogen on weed competition in 324
Cotton, irrigated, herbicide rates in 179
Cotton, preplanting application of diuron with and without trifluralin 75
Cotton, translocation and effects of perfluidone on 81
Cotton, translocation of ^{14}C-SAN 6706 in 26
Cotton, weed control systems in cotton on Tifton loamy sand soil 40
Crabgrass, postemergence control of large crabgrass and goosegrass in turf 404
^{14}C-SAN 6706 in cotton, soybean, and corn, translocation of . 26
Cultivars and seeding rates of soybean as affecting cocklebur control 386
Cultivars, soybean, differential intraspecific responses to bentazon 516
Cucumber cotyledons, effects of EPTC on plastid membrane constituents 185
Cyanazine in fall panicum, green foxtail, and corn, uptake, movement, and metabolism 277
Cyanazine, influence of growth and adjuvants on fall panicum control in corn with 241
Cyanazine, influence of soil moisture on tolerance of corn to . 522
Cycoloate and phenmedipham as complementary treatments in sugarbeets 478
Cyperaceous weeds, selective control of with K-223 15
Cytokinin effects induced in purple nutsedge by perfluidone . . 445

D

2,4-D, butyl esters of, volatilization from pyrex and leaves . . . 383
2,4-D, on Eurasian watermilfoil, interaction of calcium and . . 182
Dallisgrass, carbohydrate response to atrazine, bromacil, and MSMA 383
Dates and places of meetings of WSSA and member organization 539
Definition, antagonistic and synergistic effects 4
Degradation, Microbial of glyphosate in soil 229
Degradation, uptake, and distribution of simazine by black walnut and yellowpoplar seedlings 448
Desmedipham, influence of temperature and light intensity on phytotoxic action 499

Diallate and its isomers, effects on the growth of wild oats . . . 11
Diallate, separation and structural assignment of the cis and trans isomers . . . 7
Dinoseb and prometryn combinations in an undiluted oil carrier, effects of . . . 328
Directions for contributors to Weed Science . . . 79
Dispersal patterns of herbicides, mapping residues using x-ray fluoresence . . . 308
Dissemination of weed seeds by irrigation water . . . 486
Diuron with and without trifluralin in cotton, preplanting applications of . . . 75
Downy brome, enhancing germination of dormant seeds of . . 354
Downy brome in alfalfa, selective control of . . . 202

E

EPTC, effect on plastid membrane constituents in germinating cucumber cotyledons . . . 185
EPTC induced fatty acid synthesis inhibition, reversal of . . . 90
Ethofumesate, crop response to soil applications of . . . 409
Ethylene adsorption and movement in soils and adsorption by soil constituents . . . 302
Ethylene: A witchweed seed germination stimulant . . . 433

F

Fall panicum control in corn with cyanazine, effects of stage of growth and adjuvants . . . 241
Fatty acid biosynthesis, thiocarbamate inhibition in isolated spinach chloroplasts . . . 100
Forage grasses, arsenical herbicides for removing broomsedge from . . . 222
Foxtail, green, yellow foxtail, and barnyardgrass seeds, longevity of in soil . . . 437
Foxtail, green, uptake, movement, and metabolism of cyanazine in fall panicum, corn and . . . 277
Foxtail, yellow, green foxtail, and barnyardgrass seeds, longevity of in soil . . . 437
Fumigation, soil, without tarpaulins, control of Canada thistle by . . . 191

G

Germinability of seed reserves in a big sagebrush community . . 358
Germination behavior of Florida pusley seeds . . . 400
Germination, enhancement of dormant seeds of downy brome . 354
Germination, witchweed seed, ethylene as a stimulant of . . . 433
Germination stimulation properties of carbamate herbicides . . 419
Glyphosate, absorption, action, and translocation of . . . 235
Glyphosate, bentazon, and perfluidone, response of yellow nutsedge and soybeans to . . . 215
Glyphosate in the soil, adsorption, mobility, and microbial degradation of . . . 229
Glyphosate in the soil, rapid inactivation of . . . 224
Glyphosate on johnsongrass, activity of . . . 395
Goosegrass and large crabgrass, postemergence control of in turf 404
Greenhouse supplemental lighting, weed growth in response to . 314
Growth regulators, synthetic, methyl chlorobenzoate and chlorobenzoyl chloride as . . . 428
GS-14254, atrazine, and terbutryn sorption of on natural and lime-amended soils . . . 390

H

Herbicide application, dates of for weed control in bermudagrass . . . 110
Herbicide combinations, a method of evaluating and determining synergism . . . 20
Herbicide dispersal patterns: II. Mapping residues using x-ray fluoresence . . . 308
Herbicide performance in no-tillage corn, effects of plant residue on . . . 512
Herbicides, a method for determining the volatility of . . . 529
Herbicides for control of *Leptochloa panicoides* in water-seeded rice . . . 36
Herbicides, rates of in irrigated cotton . . . 179
Herbicide treatments on the establishment of 'Tifway' bermudagrass . . . 462

I

Inactivation of glyphosate in soil . . . 224
Isopropalin in soil and plants, transformation of . . . 165

J

Johnsongrass, activity of glyphosate on . . . 395

K

Karbutilate mode of action, contribution of side chains to . . . 425
K-223, selective control of cyperaceous weeds with . . . 15

L

Leaching studies, pesticide, a rainfall simulator for . . . 533
Leaching techniques, different, comparison with four herbicides . 508
Leptochloa panicoides, herbicides for control of in water-seeded rice . . . 36
Light and temperature influence on phytotoxic action of desmedipham . . . 499
Light and temperature on growth of purple nutsedge, effect on . 93
Longevity of barnyardgrass, green foxtail, and yellow foxtail seeds in soil . . . 437
Lime-amended soils, sorption of atrazine, terbutryn, and GS-14254 on natural and . . . 390

M

Major actions, WSSA Board of Directors, Feb. 3, 1975 . . . 537
Major actions, WSSA Board of Directors, Feb. 6, 1975 . . . 538
Mechanism of action of propachlor . . . 142
Membership list, WSSA, 1975 . . . 541
Metabolism and translocation, bentazon in soybean and navy bean . . . 265
Metabolism, movement and uptake of cyanazine in fall panicum, green foxtail, and corn . . . 277
Methyl chlorobenzoate and chlorobenzoyl chloride as synthetic plant growth regulators . . . 428
Microbial degradation, mobility, and adsorption of glyphosate in soil . . . 229
Milkweed, common, effect of early competition on growth . . 1
Millet, Japanese, basis for synergism of atrazine and alachlor combinations . . . 43
Minutes, business meeting, WSSA, Feb. 4, 1975 . . . 536
Mobility, absorption, and degradation of glyphosate in soil . . . 229
Mode of action, contribution of side chains of karbutilate to . . 425
Movement and persistence of perfluidone in soil . . . 344
MSMA, arsenic in soil with five annual applications of . . . 341
MSMA, bromacil, and atrazine, carbohydrate response of bermudagrass, dallisgrass, and smutgrass to . . . 383

N

Napropamide adsorption, desorption, and movement in soils . . 454
Navy bean and soybean, bentazon translocation and metabolism. 265
Navy bean, cocklebur, and black nightshade, the basis for bentazon selectivity in . . . 272
News Notes . . . 70,96
Nitralin, trifluralin, and benefin, soil persistence of . . . 211
Nitrate reduction by photosynthetic inhibitors, inhibition of . . 188
Nitrogen, influence of on weed competition in cotton . . . 324
No-tillage corn, effect of plant residues on herbicide performance in . . . 512
Nutsedge, purple, and vegetables, competition between . . . 317
Nutsedge, purple, control with bentazon and perfluidone in turfgrasses . . . 349
Nutsedge, purple, cytokinin effects, induced by perfluidone in . 445
Nutsedge, purple, effect of light and temperature on growth of . 93
Nutsedge, yellow and soybean response to bentazon, glyphosate, and perfluidone . . . 215
Nutsedge, yellow, competition on furrow-irrigated cotton, influence of . . . 171
Nutsedge, yellow, sprouting and resprouting potential . . . 333
Nutsedge, yellow, translocation and effects of perfluidone on . 81

O

Oat, effect of triallate granule spacing on 470
Oat, wild, control in Kentucky bluegrass and perennial ryegrass . 525
Oat, wild, effects of triallate on 283
Officers, dates, and places of meetings of WSSA and member organizations 539
Oil carrier, undiluted, effects prometryn and dinoseb in 328
Orchardgrass-alfalfa establishment, crop protectants and herbicides for 414

P

Panicum fall, control in corn with cyanazine, influence of stage of growth and adjuvants on 241
Panicum, fall, green foxtail, and corn, uptake, movement, and metabolism of cyanazine in 277
Peanuts, competition of Florida beggarweed and sicklepod with . 368
Perfluidone and bentazon in turfgrasses, purple nutsedge control with 349
Perfluidone, bentazon, and glyphosate, response of yellow nutsedge and soybeans to 215
Perfluidone, cytokinin effects induced in purple nutsedge by . . 445
Perfluidone in soil, persistence and movement of 344
Perfluidone on cotton and yellow nutsedge 81
Persistence and movement of perfluidone in soil 344
Pesticide leaching studies, a rainfall simulator for 533
Phenmedipham and cycloate as complementary treatments in sugarbeets 478
Phenoxy herbicides. CAST report 253
Photosynthetic inhibitors, inhibition of nitrite reduction by . . 188
pH, soil, and moisture effects on the direct radioassay of herbicides in soil 49
Phytoplankton bloom, sudden mortality of 61
Phytotoxic action of desmedipham: Influence of temperature and light intensity 499
Picloram activity and absorption, ammonium sulfate enhancement of 289
Places and dates of meeting of WSSA and member organization . 539
Plastid membranes of germinating cucumber cotyledons, effect of EPTC on 185
Presidential address: Pluck a thistle and plant a flower 246
Prometryn and dinoseb combinations in an undiluted oil carrier, effects of 328
Prometryn movement across and through soil 285
Pronamide, the mode of action of 155
Pronamide, uptake, translocation, and adsorption of 148
Propachlor, mechanism of action of 142
Propanil-carbofuran interactions in rice 176
Pusley, Florida seeds, germination behavior of 400

R

Radioassay of herbicides in soil, effects of pH and moisture . . 49
Rainfall simulator for pesticide leaching studies 533
Rainfall, simulated, effects on bentazon activity 105
Residues, herbicide, and weed populations in apple orchards after 5 years 52
Rice, propanil-carbofuran interactions in 176
Rice, water-seeded, herbicides for control of *Leptochloa panicoides* 36
Ryegrass, perennial and Kentucky bluegrass, wild oat control in . 525

S

Sagebrush community, germination of seed reserves in 358
Sagewort, green, in the Nebraska sandhills, control of 465
S-(2,3-dichlorallyl) diisopropyl-thiocarbamate (diallate), separation and structural assignments of the cis and trans isomers of 7
Seed germination, witchweed, ethylene a stimulant of 433
Seed reserves, germinability in a big sagebrush community . . . 358
Seeds, barnyardgrass, yellow foxtail, and green foxtail, longevity of in soil 437
Seeds, dormant, downy brome, enhancing germination of . . . 354
Seeds, weed, dissemination by irrigation water 486
Sicklepod and Florida beggarweed with peanuts, competition of . 368
Simazine uptake, distribution, and degradation by black walnut and yellowpoplar seedlings 448
Setaria, differential root growth of four taxa 364
Smutgrass, carbohydrate response to atrazine, bromacil, and MSMA 383
Smutgrass control with herbicides in turfgrasses 87
Soil applications of ethofumesate, crop response to 409
Soil enrichment studies with trifluralin 71
Soil leaching techniques with four herbicides, comparison of different 508
Soil moisture, influence on tolerance of corn to cyanazine . . . 522
Soil, movement of prometryn across and through 285
Soil, napropamide adsorption, desorption, and movement in . . 454
Soil, persistence and movement of perfluidone in 344
Soil pH influence on *s*-triazine availability to plants 378
Soil pH, response of weeds to 473
Soil, rapid inactivation of glyphosate in 224
Soils, ethylene absorption and movement in 302
Sorghum growth as affected by annual applications of atrazine . 494
Soybeans and yellow nutsedge, response to bentazon, glyphosate, and perfluidone 215
Soybean and navy bean, bentazon translocation and metabolism in 265
Soybean cultivars, differential intraspecific responses to bentazon 516
Soybeans cultivars, seeding rates, and methods of weed control, as affecting cocklebur control 386
Soybean, translocation of ^{14}C-SAN 6706 in 26
Soybean weed control systems in two southern coastal plain soils 198
Spinach chloroplasts, thiocarbamate inhibition of fatty acid biosynthesis in 100
Sprouting potential of yellow nutsedge 333
Sugarbeets, cycloate and phenmedipham as complementary treatments in 478
Sunflower, CFNP a selective herbicide for 57
Sustaining members, WSSA, 1974 78
Sustaining members, WSSA, 1975 164,264,338,540
Sycamore plantation, three year effects of herbaceous weed control in 32
Synergism, a method of evaluating herbicide combinations . . . 20
Synergism, basis for synergism of atrazine and alachlor combinations on Japanese millet 43
Synergistic and antagonistic effects, an improved definition of . 4
Systems, weed control in cotton on Tifton loamy sand soil . . . 40
Systems, weed control in soybean in two southern coastal plain soils 198

T

TCA in irrigation water after bank treatments for weed control . 207
Temperature and light influence on phytotoxic action of desmedipham 499
Temperature and light, effect on growth of purple nutsedge . . 93
Terbutryn, atrazine, and GS 14254 sorption of on natural and lime-amended soils 390
Terminology report, WSSA subcommittee on adjuvant terminology 163
Thiocarbamate inhibition of fatty acid biosynthesis in isolated spinach chloroplasts 100
Tifton loamy sand soil, weed control systems in cotton on . . . 40
Translocation, absorption, and action of glyphosate 235
Translocation and effects of perfluidone on cotton and yellow nutsedge 81
Translocation and metabolism, bentazon in soybean and navy bean 265
Translocation and uptake of pronamide 148
Translocation of atrazine: Accumulation versus passage through petioles 97
Translocation of ^{14}C-SAN 6706 in cotton, soybean, and corn . 26
Triallate, effects on wild oat grown in a growth chamber 283
Triallate granule spacing effect on oat 470
Triallate, postemergence application for wild oat control 137
Triazine availability to plants, influence of soil pH on 378
Trifluralin, benefin, and nitralin, soil persistence of 211
Trifluralin in cotton, preplanting applications of diuron with and without 75
Trifluralin, soil enrichment studies with 71

Turf, postemergence control of large crabgrass and goosegrass in . 404
Turfgrasses, purple nutsedge control with bentazon and perfluidone in 349
Turfgrasses, smutgrass control with herbicides in 87

U

Uptake and translocation of pronamide 148
Uptake, distribution, and degradation of simazine by black walnut and yellowpoplar seedlings 448
Uptake, movement, and metabolism of cyanazine in fall panicum, green foxtail, and corn 277

V

Vegetables and purple nutsedge, competition between 317
Volatilization of butyl esters of 2,4-D from Pyrex and leaves . . 119
Volatility of herbicides, a method for determining 529

W

Water, irrigation, dissemination of weed seed by 486
Water, irrigation, TCA in after bank treatment 207
Watermilfoil, eurasian, interaction of calcium and 2,4-D on . . 182
Weed competition in cotton, influence of nitrogen on 324
Weed control in bermudagrass, dates of herbicide application for 110
Weed control, three year effects of herbaceous weed control in a sycamore plantation 32
Weed growth in response to greenhouse supplemental lighting . 314
Weed populations and herbicide residues in apple orchards after 5 years 52
Weeds, response to soil pH 473
Wheat, soil water potential and bromacil uptake by 127
Wild oat control, postemergence application of triallate for . . 137
Wild oats, the effects of diallate and its isomers on the growth of 11
Winged elm, chemical mixtures for control of 131
Witchweed seed germination stimulant, ethylene 433
WSSA and member organizations, officers and dates and places of next meeting 539
WSSA, major actions Board of Directors, Feb. 3, 1975 537
WSSA, major actions Board of Directors, Feb. 6, 1975 538
WSSA, membership list, 1975 541
WSSA, sustaining members, 1975 540
WSSA, minutes business meeting, Feb. 4, 1975 536

X

X-ray fluoresence analysis in weed science 373
X-ray fluroesence, herbicide dispersal patterns: II. Mapping residues using 308

Y

Yellowpoplar seedings, uptake, distribution and degradation of simazine by 448
